## Medicine for the Earth: a basic shamanism retreat

“All ancient traditions teach that our inner state of consciousness is reflected back to us by our outer world and that what we do to the earth, we do to ourselves.”

In this retreat participants learn how to transform personal and environmental toxins while learning how to transmute negative beliefs, attitudes and the energy that comes forth from emotions.

Using the shamanic journey as well as time in nature we deepen our connection with all of life. We will explore the great power of visioning and perform a powerful ceremony with fire to manifest our visions. In collaboration with community and the spirits this retreat is a life transforming experience.

*“slipping deeper and deeper into an urban trance our senses become deafened to the voices of the natural world. Their singing beckons our spirit and urges our senses to surface and awaken to the song that is ever present, but often ignored.” ~ Andrea Stone*
